

Portable Electric Discharge Machine (EDM)

Application For Removing Broken Tap

Micro

Mini

Macro

Introduction

Hexon Portable EDM Machine Offers removal of broken tap drills from the work piece from micro range to macro range. We offers Customization in EDM Power As per user requirement

Specification

- **Hole size range**
0.17 to 1 mm (micro) (optional)
1 to 3 mm (mini) (standard)
3 to 6 mm (macro) (optional)
- **Portability**
Compact design allows for easy transportation and setup, enabling machining operations virtually anywhere.
- **Precision**
Utilizes advanced EDM technology for high-precision machining of intricate shapes and tight tolerances
- **Versatility**
Compatible with a wide range of materials, including conductive metals, and alloys
- **User-Friendly Interface**
Intuitive controls and interface make operation straightforward, minimizing training time and maximizing productivity.
- **Safety**
Built-in safety features ensure operator protection during operation, meeting industry standards and regulations.
- **Efficiency**
Rapid material removal rates and minimal tool wear result in reduced machining time and lower operational costs.
